

DynamicsAdvantage for Public Sector

Secure, efficient, reliable management of vendors, contracts, and procurement for responsible spending, cost savings, and compliance

For any government or agency in the public sector, managing how you spend your spend money is of utmost importance. You must spend money judiciously to stretch funds as far as they can go, carefully track spending and adhere to budgets, manage your vendor relationships and contracts, and be fully transparent to oversight entities as well as the people you serve.

Managing important areas like vendor relationships and contracts, procurement and spending, accounting and workflows, and security throughout your organization requires the right technology solution, built by experts that understand the needs of the public sector. That's where AKA Enterprise Solutions can help.

With the Microsoft platform as its foundation, AKA's DynamicsAdvantage for Public Sector taps into the power of Dynamics 365 Finance (ERP) to drive efficiency, transparency, and accountability.

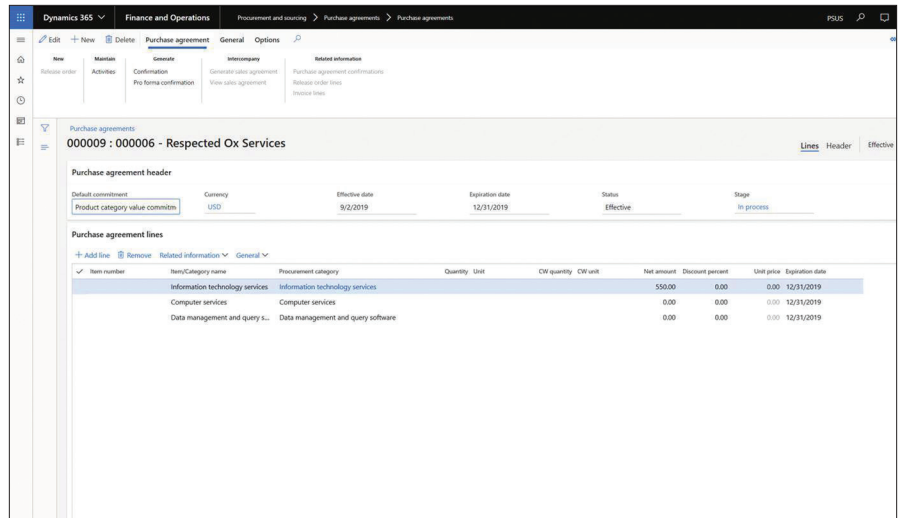

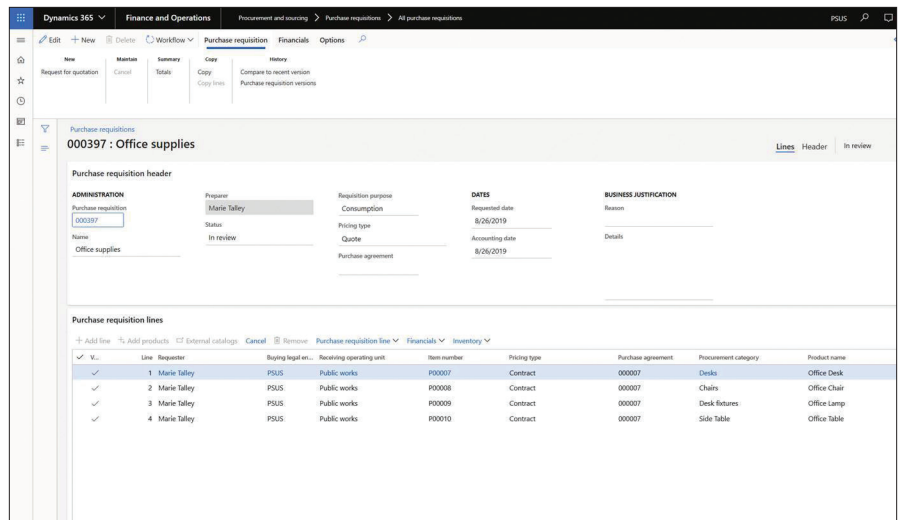

VENDOR AND CONTRACT MANAGEMENT

Public sector agencies are challenged with tight budgets and even tighter regulations regarding vendor selection and awarding contracts.

DynamicsAdvantage for Public Sector takes the guesswork out of requisitioning, bidding, contract management and monitoring, payments, and so on, you close the holes in your processes that can lead to increased costs.

PRODUCTIVITY FEATURES

Public sector agencies need to work smart, utilizing resources to their fullest. DynamicsAdvantage helps dramatically improve productivity with a transaction processing workspace, providing real-world journal entry upload usage that allows upload of all journal types across multiple companies from a single Excel file, as well as a cockpit view to manage transaction processing.

Workflow is extended for master records such as main accounts, dimensions, vendor, and project contracts.

ENHANCED SECURITY

Security has become a serious concern across the public sector. Many agencies segregate by either department or agency or by some other kind of organizational structure. DynamicsAdvantage includes the ability to segregate information by department, fund, agency, or another dimension. Your people see and work with only their information, within their designated area. This not only saves time and money; it provides an extra level of security.

The screenshot shows the 'DynAd Journal Import' interface. It features a sidebar with 'Actions' like 'Create file import' and 'Import journal transactions'. The main area displays 'History and import results' with a table of journal import batch numbers, created by, created date time, total journals, posted status, reverse tax, and reference batch number. Below this is a summary table with columns for journal batch number, name, company, total credit, total debit, posted, workflow approval status, and reverse tax.

Journal batch number	Name	Company	Total credit	Total debit	Posted	Workflow approval status	Reverse tax
0001814	WFGenus	usaf	101.00	101.00	Yes	Approved	
01156	WFGenus	usaf	100.00	100.00	Yes	Approved	

The screenshot shows the 'DynAd Dimension security configuration - Active' interface. It includes a sidebar with options like 'Create user groups / assign users', 'Assign users to user groups', 'Define financial dimension rules by group', 'Define financial dimension rules by value', and 'Activate'. The main area displays 'Setup dimensions' with a table of dimensions and their filter lookups and filter records.

Dimension	Filter lookups	Filter records
MainAccount	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Department	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

ABOUT AKA ENTERPRISE SOLUTIONS

AKA specializes in making it easier to do business, simplifying processes and reducing risks. With agility, expertise, and original industry solutions, we embrace projects other technology firms avoid—regardless of their complexity. As a true strategic partner, we help organizations slay the dragons that are keeping them from innovating their way to greatness.
